### **TAX BREAKS MEAN MORE JOBS IN AREA**

Governor Jim Doyle announced Tuesday that Marten Transport in Mondovi is getting \$250-thousand in tax credits to help the company expand its corporate headquarters. He says Marten is a great example of the kind of companies we need in Wisconsin, one that's committed to transporting the state's products all over the nation. C-E-O Bob Smith says the expansion will lay the groundwork for the growth of the company's fleet. Marten Transport, Limited is investing about a million-dollars on the expansion. The project will help create 162 full-time jobs and help the company keep another 337 positions.
