

Local Company Adding Jobs

Mondovi
Nov 30, 2004

Some extra money should get a Mondovi company on the road to more jobs. Governor Doyle says Marten Transport will receive \$250,000 in tax credits. The company is a long-haul truckload carrier and the money will help it expand its headquarters in Mondovi. The expansion is expected to create more than 160 jobs. The tax credits are part of Governor Doyle's "Grow Wisconsin Plan" which was designed to boost the state's economy.
