Executive Chairman Randolph L. Marten stated, "Our earnings were heavily pressured by the considerable duration and depth of the freight market recession's oversupply and weak demand - and the cumulative impact of inflationary operating costs and freight rate reductions, which has also led to freight network disruptions. Our unique multifaceted business model's value is highlighted by the operating results this year for our dedicated, brokerage and MRTN de Mexico operations."

"This quarter was the first quarter with sequential improvement in our combined truckload and dedicated rate per total mile since the fourth quarter of 2022."

"We are seeing increased interest by our customers to secure dedicated capacity. The recent addition of new multi-year dedicated programs for an additional 133 drivers, which I mentioned in our second quarter earnings release, has increased to 149 drivers, who we expect to be substantially in service by the end of this year. Additionally, we extended each of our contracts for dedicated programs due in the third quarter covering 337 of our drivers."

"We are focused on minimizing the freight market's impact on our operations while investing in and positioning our operations to capitalize on profitable organic growth opportunities, with fair compensation for our premium services, across each of our business operations for what comes next in the freight cycle as the market moves toward equilibrium."
